

# Winter Rally Challenge 2011

## Introduction

We begin with a review of the cars equipment, function and safety features. Instructions for correct driving position and safety regulations about driving on a frozen lake..

## Warm-up

Different driving drills and techniques for you to familiarize with the car and all of it's functions. For example brake exercises, left foot braking, hairpin turns, skidding etc.

## It's racetime!!!

Which driver sets the best time on the special stages?  
Different stages in various conditions and tempo!

## Head to head-race!

Here is the racing sensation and stress moment significant!  
You will race next to each other on two symmetrical tracks where you clearly see who is the fastest driver! The winner is, of course, the driver who gets the checkered flag first...

## After race...

We evaluate your driving skills and you get both a certificate and also a very nice experience to bring back home!

*The event is estimated at about 2 hours. Custom race-setup can be arranged in consultation with the Arctic Driving instructors.*
